

CURAÇÃO DATA DAYS

INVITATION OCTOBER 20.21.22

Explore how people, government and businesses can realize their full potential by using data to make better decisions.

Join us for this three-day virtual setup accompanied by additional online whiteboard sessions.

MISSION

We believe that a key aspect to improve society and business is for people to adopt the culture of fact-based decision making.

Curaçao Data Days is a collective venture for creating a safe and inclusive platform, where anybody interested can come together to learn, share their experiences and by way of collaborating, adopt this culture of fact-based decision making.

A balanced event tailored to be

- **business and technical**
- **practical and inspirational**
- **realistic and futuristic**
- **educational and exciting**
- **local and global**
- **general and niched**
- **and inspiring and influential**

WHO IS THIS EVENT FOR?

- **Government**
- **Students**
- **Citizens**
- **Businesses and Tech Community**

This event is balanced to equally address all the elements of data-driven approach: **Technology, Data, Process, People.**

To engage with a broad audience the topics range from different Data Domains such as **education, public health, open data, data and communication.**

With 3 levels of complexity to suit everybody's needs:
beginner – intermediate - advanced
